

# WriteOn® Whiteboards - Projection

## WriteOn® glass projection board

New contemporary projection glass board, ideal for use within meeting rooms

Superior silver matte high contrast glass surface for projection combined with the added advantage of a dry wipe surface. Due to its steel backing the 4mm tempered glass board also accepts super strength neodymium magnets. Attractive chrome mounts fit through the board to float it away from the wall. Recommended projection area is within the fixings and can be used for both 16:10 and 16:9 Widescreen format projection up to a view width of 1700mm. Refresh surface with a whiteboard cleaning spray periodically.
