

# Multi-Board mobile presentation system

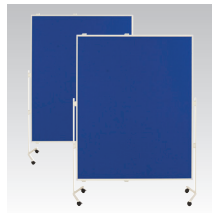

An exhibition and display system with multitude of uses - artwork display, photography, large format drawings

Whiteboard variants are ideal for brainstorming, interactive sessions and presentations. Large aluminium framed panel measuring 1500(H) x 1200mm(W) that mounts portrait or landscape between sturdy steel legs. Total height of 1950mm when mounted either portrait or landscape. Supplied with adjustable button feet for stable positioning, castor sets are available to make the boards mobile. Can be used in straight line or curved arcs due to unique angled feet. 6 panels create a semi circle, 12 panels a complete circle; ideal for large display events in school halls or entrances. Foot joining plates supplied to lock adjacent panels together. Robust construction will give years of trouble free use.

Available in 2 options:

- A Double sided fabric covered pinnable display system.
- B One side pinnable fabric and one side magnetic whiteboard with pen tray and flipchart clips.

Both systems are interchangeable for greater flexibility.
