### Why Use an Umbrella Wrapper?

There are several reasons that one of our Umbrella wrapping machines should be used:

1. Drastically reduces slips, trips and falls during wet weather.
2. Keeps merchandise free from water damage
3. Due to the high tension spring mechanism and ergonomical design, an umbrella can be wrapped in less than two seconds.
4. Completely mechanical operation – No Electricity required to power our machines.
5. Simple Installation
6. Each machine will hold 1 000 bags
7. Enhance the image of your company offering clients a “feel good” factor.
8. All of our products are covered with a warranty.
9. Can be branded
