

QueueMaster Twin

AFFORDABLE TWIN BELTS

The QueueMaster Twin is an affordable option for ADA (Americans with Disabilities Act) compliant stanchions. The lower belt restricts pedestrians from ducking under the belt, helps keep children in line and provides guidance for the visually impaired using a cane. This product features a unique two piece post construction which allows the lower belt mechanism to be easily replaced in the field. The Xtra model features a 50% wider belt making a more visible barrier and giving much greater impact to printed logos and messages.

3 EASY STEPS TO REMOVE THE LOWER BELT CASSETTE

Step 1: Remove post retaining screws

Step 2: Slide off the post top

Step 3: Loosen the cassette retaining screws and slide out the cassette
