

WeatherMaster 250 Twin

PORTABLE & WEATHERPROOF

WeatherMaster 250 Twin is a tough, portable barrier ideal for creating outdoor waiting lines or restricting access to temporary work areas. The lower belt restricts pedestrians from ducking under the belt, provides guidance for the visually impaired using a cane and makes this product ADA (Americans with Disabilities Act) compliant. WeatherMaster's stainless steel post features a two piece construction which allows the lower belt mechanism to be easily replaced in the field and unscrews from the base so the unit can be stored flat when not in use. The recycled rubber base has convenient carry handles and is tough enough to be driven over!

3 Easy Steps to Remove the Lower Belt Cassette

Step 1: Remove post retaining screws

Step 2: Slide off the post top

Step 3: Loosen the cassette retaining screws and slide out the cassette
